

Sepideh Mansouri

UX/UI Designer | Junior & Internship Candidate

Aspiring UX/UI Designer with a background in content management and customer-facing roles, currently transitioning into digital product design. Experienced in user-centered thinking through project-based training at ReDI School of Digital Integration and independent UX projects. Skilled in designing mobile-first interfaces, improving usability, and structuring information for clarity. Strong understanding of user behavior developed through both real-world customer experience and UX design practice. Currently seeking Junior UX Designer or Internship opportunities in Berlin to further develop practical product design skills.
